Technology experts on hand to demonstrate various wide-format UV inkjet engines, ink, software and more

Ridgefield Park, NJ – March 1, 2011 – Agfa Graphics announced today that technology experts will be at the company's Branchburg, NJ, manufacturing facility for a free Open House to demonstrate various wide-format UV inkjet printing systems, inks, software and more. The open house is being held on Wednesday, March 2nd and Thursday, March 3rd, 2011 from 10:00AM to 5:00PM.

Anyone interested in learning about digital inkjet printing systems is encouraged to attend the open house, which will include demonstrations of engines from Agfa, HP and Epson. Attendees can also learn about Agfa's inks and other production technologies associated with inkjet printing, such as finishing systems, color management tools, web portals, job estimating software, and more. Agfa will also showcase its award-winning CtP portfolio, Apogee workflow suite and extensive proofing solutions. In addition, attendees can evaluate Agfa's extensive media assortment and speak with media vendors such as 3M, Transilwrap, United, 3A Composites, Palram and Neschen.

"People who are interested in getting into inkjet printing can benefit from attending our open house. Those who are already involved can learn how they can make their current systems and processes even more efficient," said Deborah Hutcheson, Director of Marketing, Agfa Graphics, North America. "Wide-format inkjet is a fast-growing segment in the printing industry and is helping many printers offer new and exciting products and services to their customers that previously were unattainable for most commercial printers. The open house event in Branchburg will help show how wide-format inkjet technologies can boost your profitability."
